

# **KENYA - THE ULTIMATE WILDLIFE DESTINATION**

*By Annabella Francescon*

We may Travel around Africa on many a wildlife safari, but we will always come back to Kenya for the utmost wildlife experience. I tell my story through my photos as no words could ever describe the beauty of these animals nor could they ever describe the feeling of peace and happiness that reaches deep within you as you watch from one side. You are humbled by their beauty and you are thankful that these creatures still have their freedom and space even today as they roam the wilds of Kenya.

Enjoy your pictorial safari seen through my lens

*I start my story with the most amazing of our animals - the wonderful African giants. I begin with huge elephant kisses.*

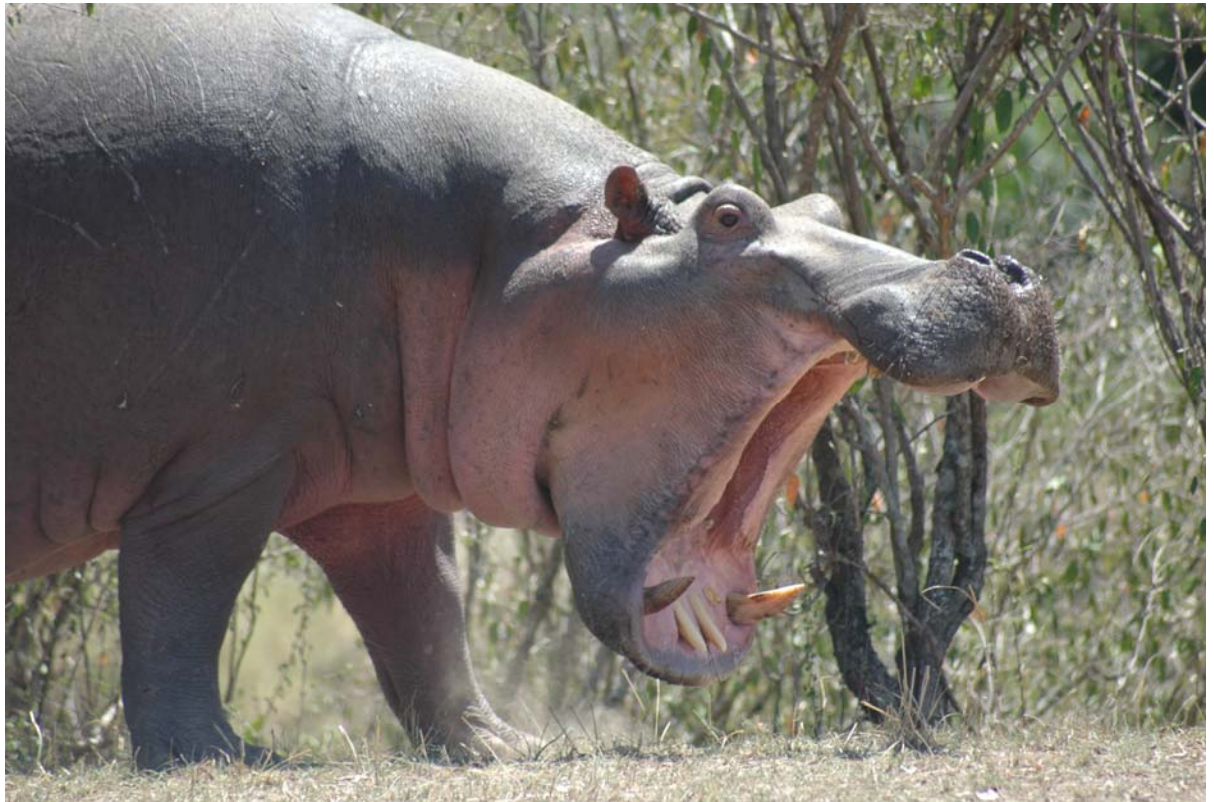

*The King and Queen survey their kingdom:*

*Thanks girls..... a successful hunt:*

*Oh ..... Yawn!*

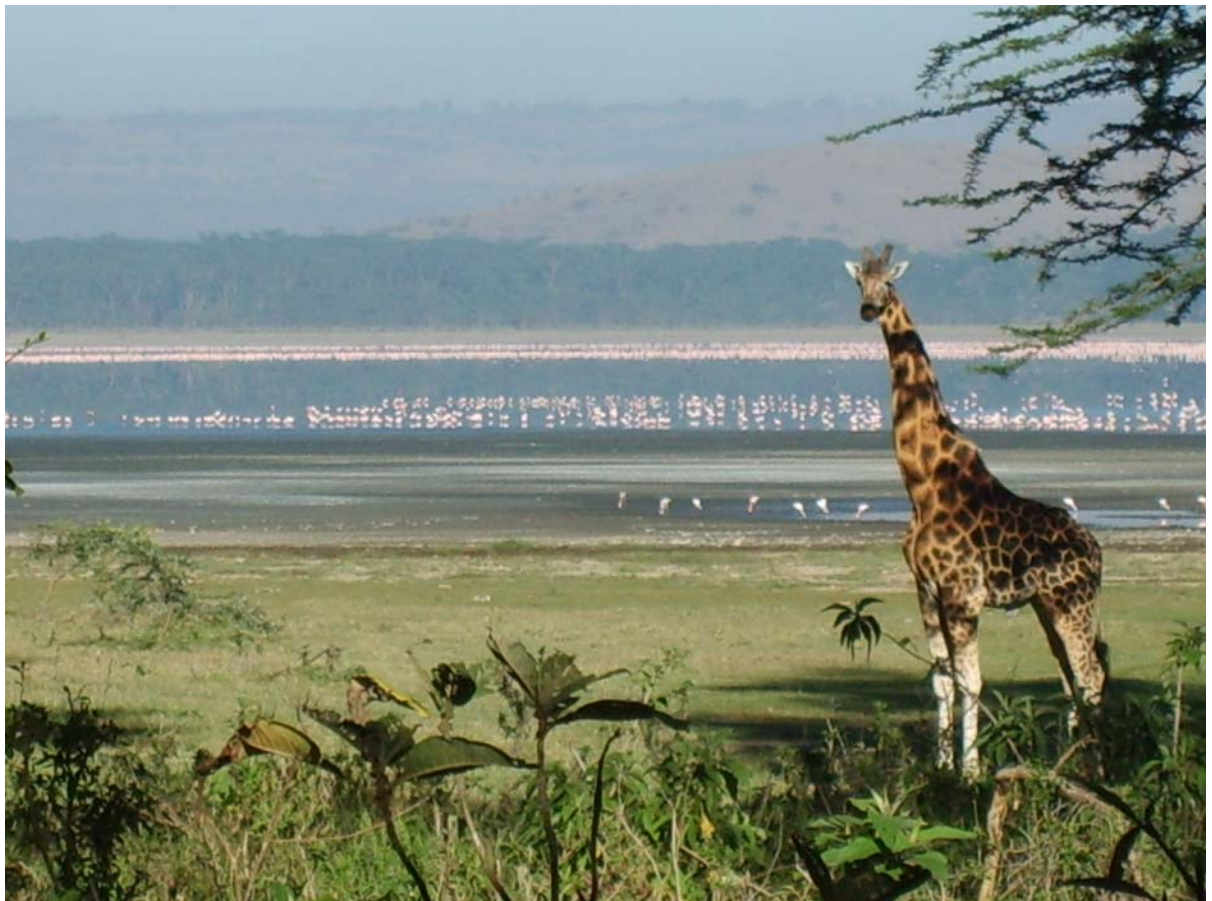

*Let me rejoin my family*

*The most beautiful giraffe – the Reticulated Giraffe, only found north of the Equator, in great abundance in northern Kenya*

*And his cousin at Lake Nakuru*

*Herds across the plains. Thanks to the efforts of the Kenyan authorities and Kenya's people who fought a hard battle but won the day at CITES to save these special creatures, we are still able to see scenes like these:*

*We need more eles...!*

*You look one way and I will look the other way and maybe we will see something.....!*

*After all that work.... siesta time....!*

*Will she think I am handsome...?*

*mmmmmm...!*

*You could, of course, end your safari by taking a rhino for a walk!!!!*
